

Solving One-Step Equations with Integers

- The goal is to isolate the _____. (Get x by itself)
- To do this, we use _____.
- Inverse operations are _____.
 - Ex: _____ and _____ and _____
- _____ Property of _____: whatever is subtracted from one side of the equal sign, must be _____ from the other side.
- The Properties of _____ apply for _____, _____, and _____ too.

Example				
Add or subtract the same number from both sides of the equation.				
Multiply or divide the same number from both sides of the equation.				
Write your solution as x = _____
